- Imaginative and worldly-wise narration
- Wonderfully illustrated

Konrad sets off on a quest: to find a special state of mind so that he can succeed in living his dream. In the Land of Seven States of Mind, he discovers the Fortress of Arrogance. He encounters haughtiness and fickleness. But state of mind also has something to do with a person's disposition. And his long-forgotten courage suddenly reappears. This is a poetic tale about setting off and arriving – about contentment and happiness.
